Some great
photos here!

A. Accepted

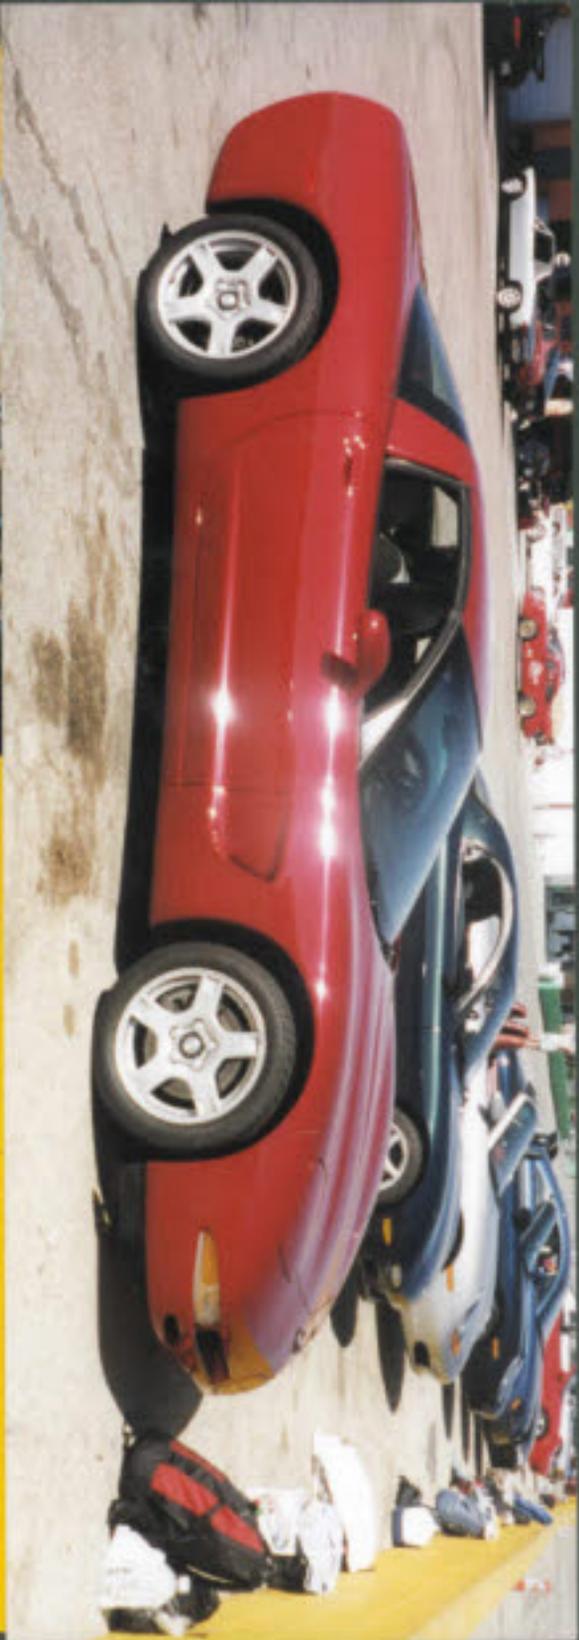

These pictures, from my back-packing trip in New Mexico show some of my best friends, enjoying hiking with me

B: Best Friends

Sean Scheretz, my best friend, is in these pictures, I am always welcome at his house, and am like a son to his parents.

C: Corvette

My biggest obsession over the past several months. I'm hoping to purchase a used one soon.

Di Dancing

Me just before Homecoming. No, my eyes weren't really red...

I love dancing. It doesn't matter if it's a club, a party or a school event. Dancing makes me feel more at ease around people and everyone seems to have a lot more fun,

• E: Exercise

Exercise, to maintain a good body as well as a fit mind, is important to me. These pictures are from part of the biking route that I do on the weekends.

• FiFar-Out

• All you have to do is bore me a little bit and in about a minute, I'm already not paying attention. I laugh a lot.

• Hi: Hi - Tech

I'm most comfortable working with computers.

• Since I was a child, my parents always made sure that I had a computer available to me. Just last summer, I built my own.

Chapter 2: Technical Information

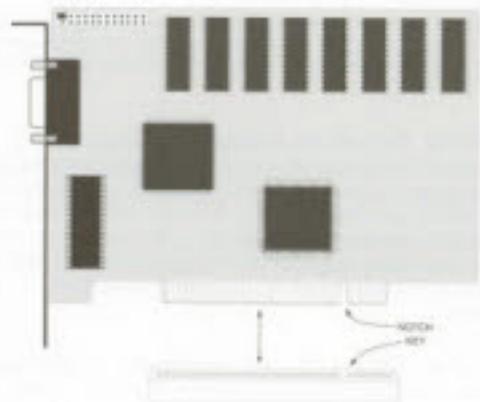

Figure 2-9. Installing a PCI Local Bus Card

NOTE: The ISA slot (J20) and the PCI slot (J16) are "shared slots." When a PCI card is installed into the (J16) PCI slot, the (J20) ISA slot is disabled. Conversely, when a peripheral card is installed into the (J20) ISA slot, the (J16) PCI slot is disabled.

With money from my bank account and my job over the summer, I'm hoping to make enough money to purchase my used Corvette through investing.

22 / Lesson 4

Fragment of a letter written by Bar Kokhba, second century C.E.

Square script.
A page from the "Bird's
Head Haggadah," c. 1300

I'm
very
proud of
my religion.
I believe it
provides good
lessons, and
that it is a
religion meant to
be lived rather
than heard.

K: Keen

While not always the best at school related things, I realize, nonetheless that I am still very intelligent. I attribute my gift of intelligence largely to heredity and my family environment.

L. Little

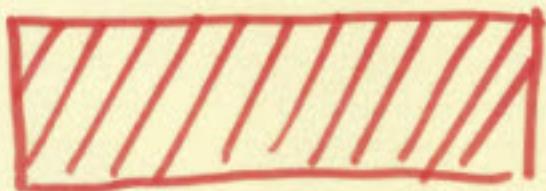

Compared to my friends, I'm pretty small. One time, as a joke, they stole my shoes and put them up above Sean's garage door. I simply took a pool cue and knocked them down (the shoes). Size, as a result, is not an issue in our group.

M: The Matrix

Easily my favorite movie of all time, partly for the incredible action sequences, but mostly for its deep plot. It made me reconsider the world in a different kind of way, and was incredibly thought provoking.

• N: Negative

• I'm not a terribly positive person. Most of the time, I can be heard arguing about how things aren't "the way they should be". And I'm always right, unless I can be proven wrong.

Oldest

I am the oldest child in my family, and have one brother. Sometimes, he can be pretty weird, but he's mostly cool.

P. Palm Springs

We just finished moving from our ~~our~~ rented house in Palm Springs to a new house in Indian Wells. We are out in Palm Springs very often

Q: Qualcomm

QUALCOMM[®]

One of my favorite companies of all time. I own several shares of Qualcomm and have always been impressed by their strong investor relations program, as well as their rapid rise to fame.

• R: Ray-Ban

I own a pair of Ray-Ban Highstreet Sunglasses. They are the nicest pair of sunglasses that I own, which is why I don't often wear them at school. On the weekends, or in Palm Springs, I wear them days at a time.

Si Sports Cars

Some say a picture is worth a thousand words. I disagree. A couple of choice experiences are all that are needed to describe these works of art and performance.

● T: Touring Sedan

● 1989 Oldsmobile Touring Sedan. This is the car that I currently drive. My dad owned it, and now I'm using it until I buy my own car. Granted, it's not too sporty but it does get me around in a fair amount of style.

U: Ultra-Conservative

Thomas Jefferson

- Whereas my father is a strident Republican, I have found myself to be much more of a Libertarian. In my opinion, the only responsibility of government is to set laws and maintain a military. Everything else should be left to the free market, **AND NO TAXES!!!** (Except in times of war).

• V: Vocal

• I pride myself on the ability to speak persuasively and with clarity. This has aided me in my arguments and in Model United Nations.

W: Willpower

I am a strong proponent of the belief in free will. If I feel strongly enough about a cause, you can threaten, mentally or physically, and it will have no effect. I feel that external harm is just that, external, and that your beliefs are your own.

X: XK8

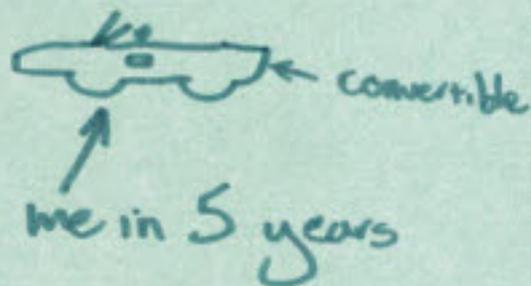

Jaguar XK8

The finest automobile
that I have ever had
the privilege of driving.
It belongs to my mother,
but is rarely driven
because "people look"
when she drives it.

Y: Young

Right now, I realize that I'm still young. I hope to gain experience about the world in college, so that I will be able to take full advantage of what the world has to offer.

Z: Zeal...

If I really have incentive to do something
it gets done, some way, some how. Which
reminds me, I have to go check how
many Silver Gray '84 Corvettes are
for sale... so, That's me from A to Z!
